WORK EXPERIENCE

NANÁ

Frontend Developer (Freelance)

(Remote)

(May 2024 – Present)

Website Development for nanáconvivial.de – Restaurant in Frankfurt. This ongoing project involves:

- **Design & Development:** Designed, developed, and continue to maintain the website using React. Implemented a responsive design and interactive components to enhance user experience.
- **Performance Optimization:** Achieved a 168% user growth. Reached a peak of 400 active users in a single day. Maintained a consistent base of 50 daily active users. Increased organic traffic by 68% through continuous SEO optimization.
- **Collaboration & Updates:** Collaborate closely with the client to implement new features. Conduct regular maintenance and updates to maximize website effectiveness and conversion rates.

SIDE PROJECTS

UniCash

[Github Repo](#)

UniCash is a web application designed to help students effectively manage their finances. You can check out UniCash [here](#).

- Comprehensive tools for tracking expenses, visualizing spending patterns and maintaining a balanced budget.
- Utilized React for the frontend, Tailwind CSS for responsive design, Node.js and Express for backend development.
- Implemented MongoDB for database management and shadcn/ui for data visualization.

Portfolio Website

[Github Repo](#)

- Developed and maintained a personal portfolio website, accessible at vitalefrancesco.com, to showcase my web development projects and skills.
- Built using HTML, CSS, and JavaScript, with a focus on responsive design and intuitive user interface.
- Optimized for performance and SEO, ensuring smooth navigation and improved online visibility.
- Leveraged as a personal marketing tool to attract professional opportunities and demonstrate my technical abilities.
